Car Charger 7200

3-Port Smart Car Charger

You have a smartphone, a tablet, a navigation system and a smart watch. Everyday there is a new smart development to ease day-to-day life. And of course all your gadgets should always be powered up. Wouldn't it be nice to charge all your devices when driving to work, driving to some friend's house or while picking up your kids?

Thanks to the ARCTIC **Car Charger 7200** that is no longer pie in the sky. Plug in your USB-devices and charge up to three tablets while driving your car. Thanks to its smart charging technology, the **Car Charger 7200** speaks the languages of all major brands from Apple to Samsung to HTC and thus it can fast charge any gadget you have.
