

## **Two are better than one: Freezer i32 Plus with additional Fan**

### **Extra low noise F12 PWM fan for more cooling capacity**

The enhanced ARCTIC Freezer i32 Plus comes up with an additional Fan to cool down much-engaged CPU's. Both fans are mounted on opposite sides of the radiator and thus provide a great airflow. The first fan pushes air through the radiator, the second fan pulls the air through it.

### **Already, the Freezer i32 was praised by experts.**

If you really need a silent cooler, one that only turns on when you really need it, then maybe the ARCTIC Freezer i32 is the cooler for you. Arctic started with an ideal use case and created a product that matches it perfectly.

The ARCTIC Freezer i32 offers good cooling performance, little chance of interference with memory slots, and a PWM fan that turns off at low load.

## Performance Champ

Thanks to the award winning cooling performance of 320 Watts, the Freezer i32 Plus is the perfect gadget for PC enthusiasts looking for a keen solution for the CPU cooling.

Hyper 212X

Specification	
Compatibility	Intel 2011(-3), 1150, 1151, 1155, 1156
Heat Pipe	Ø 6 mm x 5
Heatsink Material	Aluminum Fins x 84, Thickness 0.3 mm
Thermal Compound	MX-4
Fan	120 mm x 2, 0 – 1 350 RPM (Controlled by PWM)
Bearing	Fluid Dynamic Bearing
Noise Level	0.3 Sone
Current / Voltage	0.2 A / +12 V DC
Dimensions	123 (L) x 102 (W) x 150 (H) mm
Net Weight	752 g

### 15 Years of Expertise

ARCTIC does not only play in the top league of the cooling specialists ever since, ARCTIC initiated the trend towards quiet cooling systems for desktop PCs and left a distinct mark. In 2001 the Swiss engineer and company founder Magnus Huber has determined to fight against loud computers – today, the still privately-owned company with locations in Germany, Hong Kong and the USA offers one of the world's largest ranges of CPU and GPU coolers. Maximum compatibility, first-class performance and lowest volume convince enthusiasts in over 45 countries around the globe. With the competence of an unique expert knowledge from 15 years of (pc) noise minimization ARCTIC is building out its portfolio through high-quality sound products and office equipment.

**Als neues Feature hat der Freezer i32 Plus versetzt angebrachte Heatpipes, die die Wärme besser als die zentrierten seines Vorgängers ableiten. Darüber hinaus erzeugen die 49 Aluminiumlamellen Mikrowirbel, die den Luftstrom steigern und diesen um die Heatpipes zirkulieren lassen.**

Neu:

Zusätzlicher Lüfter für mehr Kühlkapazität

Als neues Feature hat der Freezer i32 Plus versetzt angebrachte Heatpipes, die die Wärme besser als die zentrierten seines Vorgängers ableiten. Darüber hinaus erzeugen die 49 Aluminiumlamellen Mikrowirbel, die den Luftstrom steigern und diesen um die Heatpipes zirkulieren lassen.

Der Freezer i32 Plus ist eine Weiterentwicklung des Freezer i30 und wartet mit einer ganzen Reihe von Verbesserungen auf, die die Leistung des CPU-Kühlers steigern und ihn dabei noch leiser machen. Dank der preisgekrönten Kühlleistung von 320 Watt ist der Freezer i32 Plus das perfekte Gadget für PC-Enthusiasten auf der Suche nach einer günstigen CPU-Kühlung.
